

## MDXLD-PV 4/1

PV Metal Combiner Box-4 strings input 1 string output

- Max Voltage: 600V/1000V
- Degree of Resistance to Impacts: IK10
- Max Current Output: 63A/125A
- Installation: Wall Mounting
- Material Type: Metal
- Dimension (WxHxD): 400x400x160mm
- Degree of Protection: IP54

## MDXLD-PV 6/1

PV Metal Combiner Box-6 strings input 1 string output

- Max Voltage: 1000V
- Degree of Resistance to Impacts: IK10
- Max Current Output: 125A
- Installation: Wall Mounting
- Material Type: Metal
- Dimension (WxHxD): 500x500x180mm
- Degree of Protection: IP54

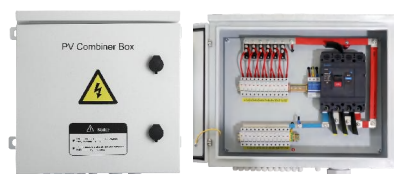

## MDXLD-PV 10/1

PV Metal Combiner Box-10 strings input 1 string output

- Max Voltage: 1000V
- Degree of Resistance to Impacts: IK10
- Max Current Output: 250A
- Installation: Wall Mounting
- Material Type: Metal
- Dimension (WxHxD): 500x500x180mm
- Degree of Protection: IP54

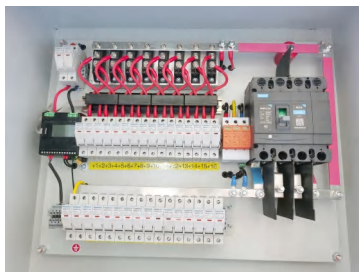

## MDXLD-PV 12/1

PV Metal Combiner Box-12 strings input 1 string output

- Max Voltage: 1000V
- Degree of Resistance to Impacts: IK10
- Max Current Output: 250A
- Installation: Wall Mounting
- Material Type: Metal
- Degree of Protection: IP54

## MDXLD-PV 16/1

PV Metal Combiner Box-16 strings input 1 string output

- Max Voltage: 1000V
- Max Current Output: 250A
- Material Type: Metal
- Monitoring Module: Optional
- Degree of Resistance to Impacts: IK10
- Installation: Wall Mounting
- Degree of Protection: IP54

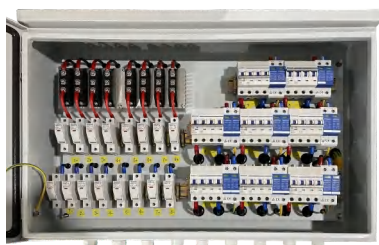

## MDXLD-PV 4/4

PV Metal Combiner Box-4 strings input 4 strings output

- Max Voltage: 1000V
- Max Current Output: 63A
- Material Type: Metal
- Degree of Resistance to Impacts: IK10
- Installation: Wall Mounting
- Degree of Protection: IP54

## MDXLD-PV 8/8

PV Metal Combiner Box-8 strings input 8 strings output

- Max Voltage: 1000V
- Max Current Output: 63A
- Material Type: Metal
- Degree of Resistance to Impacts: IK10
- Installation: Wall Mounting
- Degree of Protection: IP54

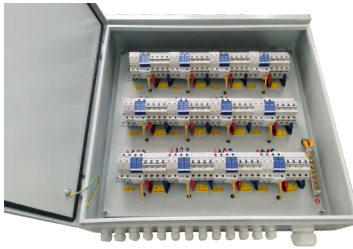

## MDXLD-PV 10/10

PV Metal Combiner Box-10 strings input 10 strings output

- Max Voltage: 1000V
- Max Current Output: 63A
- Material Type: Metal
- Degree of Resistance to Impacts: IK10
- Installation: Wall Mounting
- Degree of Protection: IP54

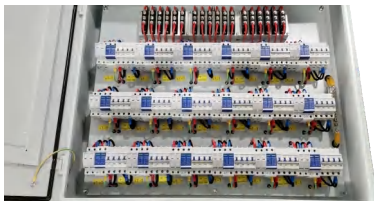

## MDXLD-PV 12/12

PV Metal Combiner Box-12 strings input 12 strings output

- |                           |                                         |
|---------------------------|-----------------------------------------|
| • Max Voltage: 1000V      | • Degree of Resistance to Impacts: IK10 |
| • Max Current Output: 63A | • Installation: Wall Mounting           |
| • Material Type: Metal    | • Degree of Protection: IP54            |

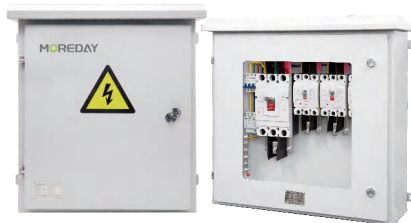

## MDXLD-PV 18/18

PV Metal Combiner Box-18 strings input 18 strings output

- |                           |                                         |
|---------------------------|-----------------------------------------|
| • Max Voltage: 1000V      | • Degree of Resistance to Impacts: IK10 |
| • Max Current Output: 63A | • Installation: Wall Mounting           |
| • Material Type: Metal    | • Degree of Protection: IP54            |

## MDHL

AC Combiner Box

- |                         |                              |
|-------------------------|------------------------------|
| • Capacity: 8-100kW     | • Rate voltage: 220V/380V    |
| • Rated Current:16-400A | • Rated frequency: 50-60Hz   |
| • Material: Metal       | • Degree of Protection: IP54 |

## MDX-20/MDX-200/MDX-400

Grid-Connected Box

- |                            |                                            |
|----------------------------|--------------------------------------------|
| • Capacity: 3-10kW; 8-50kw | • Rate voltage: 220V/380V; 220V/380V; 380V |
| • Rated frequency: 50-60Hz | • Degree of Protection: IP54               |
| • Material: Metal          |                                            |
